

# Grace

Grace is the \_\_\_\_\_ of God.

## Why Grace?

The sin and depravity of humanity created a problem.  
The Law of God illustrated just how large the problem had become.  
The problem could not be solved by:

\_\_\_\_\_  
\_\_\_\_\_  
The \_\_\_\_\_

“Law tells me how crooked I am; grace comes along and straightens me out.” D.L. Moody

Even though the sacrificial system could not solve the problem, it did point to the solution.

Grace is \_\_\_\_\_.

Grace is unmerited \_\_\_\_\_ of God.

Greek Word: *χαρις*

Kindness Gift

Thanks Good will

## Two Cautions Regarding Grace

Beware of \_\_\_\_\_ grace.

We must be careful not to \_\_\_\_\_ the grace of God.

## The Sufficiency of Grace

Grace is \_\_\_\_\_.

### So What?

We must humbly accept that we are \_\_\_\_\_ of God's grace and that it was not through any value or merit of our own that God has loved us.

The same grace that saved us is the same grace that will help and cause us to continue in being a follower of Christ and sanctify us.

Since we are objects of the grace of God we ought also to be \_\_\_\_\_ of His grace to others showing them the unmerited favor that we have also received. “But for the GRACE of God there go I.”
